

<i>Module</i>	<i>Unit</i>	<i>Semester</i>	<i>CPs/SWS</i>	<i>Language</i>
PB20 Project Management Law	PB20-1 International Procurement and Contract Law	P6 SS+WS	2/2	German English

<i>Lecturer</i>	Prof. Dr. iur. Balensiefen
<i>Prerequisite</i>	Knowledge of the contents from PB05-3 Private Building Law Principles, acquiring the necessary admission to exams in the second section of studies according to the study and exam regulations § 28 (3) Structure of the study programme
<i>Teaching format</i>	<input checked="" type="checkbox"/> Lecture <input type="checkbox"/> Project work <input type="checkbox"/> Tutorial <input type="checkbox"/> Work in a team <input type="checkbox"/> Laboratory <input type="checkbox"/> Miscellaneous
<i>Learning objectives (knowledge, skills, competencies)</i>	The students gain knowledge about contract practices in Germany, for projects with a foreign element and in the international area (FIDIC). They have knowledge about public procurement law procedures in Germany, the EU and internationally. They have the skills to determine their own position in projects concerning contract management and for contributing to the accomplishment, implementation and executing of contracts. The students learn how they can connect legal principles with technical, economic and organisational conditions in the project.
<i>Contents</i>	<ul style="list-style-type: none"> ▪ Unit price contract, GC contract, complex contract models in planning, implementation and PM ▪ Principles of construction-based international private law (IPR) ▪ Introduction to FIDIC (Red Book, Green Book, Gold Book) ▪ Meaning and principles of public procurement law (Germany, EU, International: General Procurement Agreement)
